Faith Based Programs

Please note that units are being asked to return to their house of worship/charter organization for guidance and instruction in the age appropriate faith based programs.

The 12th point of the Scout Law is important, but one which should have instruction within the context of the participants/units faith and under the guidance of their pastors/rabbi.

For help in organizing or implementing a program in your faith, please contact: Cindy Cone, ccone@att.net.
